

## Foreign Intelligence.

### The Latest.

Yesterday arrived at this port ship *Aurora*, Follansbee, 35 days from Liverpool; by her we have received a London paper of the 5th of June, with two or three of previous dates: from a cursory perusal, we find nothing of very great moment.—On the subject of Bonaparte's assuming a royal title, the *London Sun* of the 1st ult. observes:—

"On the 20th ult. Bonaparte was proclaimed Emperor in Paris.—Such is the end of what was called the Republican Constitution of France, which is now represented to have been only an experiment. This experiment, which cost so many hundred thousand lives, and produced scenes of horror unprecedented in the civilized world, has not been found to answer, and France ends exactly where she began—with an Absolute Monarchical Government. It is rather singular that two of Bonaparte's Brothers, Lucien and Jerome, do not share in the general elevation of their Family: they remain simple Citizens, and are excluded from the Succession to the Empire."

London, May 20.—Numerous American and other neutral vessels have been engaged at Leghorn as transports; it was reported there, that they were to convey French troops to Sardinia.

All the Officers of the American frigate *Philadelphia*, have been liberated by the Dey of Tripoli, on the interference of the French Consul.

May 27.—Most of the Northern coasts have received assurances from Russia, of effectual protection in the event of being attacked by France. The Emperor has issued orders to all his residents in Germany and in Italy, directing them to afford assistance and protection to all French emigrants who may be desirous to settle in the Russian Territories.

Mr. Drake & family have reached Berlin.

Yesterday we received the following extract of a Letter from Paris:—

"Domiciliary visits are now constant in Paris, where every time Bonaparte appears on the parade, the military, who crowd every avenue, enter the houses and search every closet in them, to be ascertained that neither arms nor suspected persons are contained therein; if any owner durst remonstrate against this intrusion, the answer is, *de par le Consul, taisez-vous!*"

"The Senate lately assembled at St. Cloud to deliberate upon the powers to be confided to the New Emperor, and upon various matters connected with his elevation, but it did not form any conclusion on the subject."

"The Imperial Diadem and other regalia of the Corsican Adventurer, exceeds in splendor every thing hitherto worn by any Monarch; they have been in complete readiness for more than three months."

"Moreau and some others are, it is said, to be pardoned, Napoleon wishing, by this act of clemency, to signalize the commencement of his Imperial Government. The examinations in the Temple are frequently renewed, and the prisoners, in passing to the Hall, are each attended by two gens d'armes, through two double ranks of dragoons and gens d'armes."

"Part of the army of Gen. Regnier has embarked on board the fleet at Toulon."

"Orders have been issued to the camps along the coast, that no officer or Soldier shall, under any circumstance, be more than one day's march from his corps, and to hold themselves in readiness for service at an hour's notice."

A report has been brought by the Lisbon Mail, that Mr. Frere was daily expected to take his passage for England in consequence of an approaching war with this country.—The Prince of Peace, in answer to some complaint of Mr. Frere, respecting the words ascribed by the *Moniteur* to that Prince, is said to have replied, that if he wished satisfaction it would be given by 60,000 Spaniards, that should be sent to join the army destined for the invasion of England.

A letter from Petersburg of the 25th April, says, "Count Woronzow, our Minister at the court of London, is recalled, to fill a place in our Ministry. The next courier from England is expected to bring an answer, which will be immediately followed by a declaration of war against France. Louis XVIII. will be acknowledged King of France by all the Members of the Coalition, and all conquests but in his name will be renounced."

The Russian army on the frontiers of Poland has been considerably reinforced; and on the 7th May, orders were issued to the troops to hold themselves in readiness to march.

By the last accounts from Hamburg, it was the general opinion there that a Continental War would speedily take place, and that Russia will shortly declare herself. The Russian troops, it is said, are ready to act; and the fleet at Sebastopolis is in a complete state of equipment.—A letter from Lemberg also states, that great numbers of Russian troops are assembling on the frontiers of Poland. Other letters say, that two more Russian frigates have passed the Dardanelles for the Seven Islands.

It is said that the news of Mr. Pitt's appointment has created general satisfaction in Ireland, amongst the Catholics, who in con-

sequence expect "a speedy redress of their grievances, and an emancipation from the bondage of the penal statutes."

June 3.—The French Princes and princesses are to be addressed by the title of their Imperial Highnesses; and the Sisters of the Emperor are to enjoy the same dignity. The Great Officers of the Empire are to receive the title of their Serene Highness, and they, as well as the Princes, are to be addressed "Monsieur."

Capt. Cantilo from India, via Egypt and Lisbon. Left Lord Nelson with his fleet off Toulon, on the 23d April, all well.

Paris, May 20.—The Organic *Senatus Consultum* was proclaimed by the Emperor Bonaparte, and will be published in Paris to-morrow (Sunday) at noon.

His Imperial Majesty has nominated to the dignity of Grand Elector, His Imperial Highness Prince Joseph Bonaparte: to that of Constable, His Imperial Highness Prince Louis Bonaparte: to that of Arch Chancellor of the Empire, the Consul Cambaceres: and to that of Arch-Treasurer, the Consul Lebrun.

### FROM FRANCE.

Boston, July 16.

Last evening, arrived at this port, the ship *Weymouth*, capt. Rich, in 44 days from Bourdeaux, where, after being ready for sea, he was detained 30 days by an embargo. The papers, received by this arrival, are to the 24th May.

On a cursory perusal, we find them filled with addresses to Bonaparte, that he would yield to the wishes of the French people, in assuming the Title of Emperor. One address is signed by the Officers and soldiers of 20 regiments, in the Camp of St. Omars; one of the 12 regiments, at Brest; and one other of 10 regiments at Utrecht. An address from *Aix la Chapelle*, prays that he would seat himself on the throne of *Charlemagne*; another address styles him—*ye Dieu Donne* (the Gift of God.) Besides these, there are several addresses from the legislative Bodies, Courts, Tribunals, &c.

The French Emigrants are quitting the dominions of Prussia.

Berlin, April 28.—His Prussian Majesty will not accept the proposition of the French Government, to indemnify him for the loss in his finances, provided he will consent that Embden be occupied by the French.

### FROM THE MEDITERRANEAN.

Capt. Atkins arrived at Boston in 58 days from Malaga, informs, that Mr. Kirkpatrick had received a letter from the American Consul at Tunis, in which he stated that the Tunisians appeared disposed to enter into war with the United States, and that two or three of their corsairs were at sea cruising for American vessels. A letter from Commodore Preble mentioned, that his force was not sufficient for the effectual Blockade of the ports of Tunis and Tripoli.

Capt. Dagget, arrived yesterday from Marseilles, informs, that while he lay in that port, Capt. Jackson arrived there from Mafena, and acquainted him, that he had seen a letter from Mr. Gibbs of Palermo, which mentioned that the Tunisians had formally declared War against the United States on the 16th of March; and that they had sent out a considerable force against American vessels. The same letter adds, that the Neapolitans had sent a number of ships against the Tunisian privateers.

Capt. D. further adds, that an Italian vessel, which arrived at Mafena on the 21st of April; brought intelligence of the fitting out of several Tunisian ships; and that the American Consul had quitted that Regency.

### FROM ST. THOMAS, JUNE 26.

A correspondent who has lately arrived in this country, from St. Thomas, remarks, "That the markets at that place are dull for almost every article of American production; and little or no vent for Dry Goods, there being scarcely any trade with the Spanish Maine, or colonies, owing to the vigilance of the Spanish privateers in intercepting the contraband trade, which hitherto has been the chief support of the markets at St. Thomas. Articles of export are also scarce. The price of Coffee, 1st quality, is 24 cts. 2d do. 22, triage, 12 a lb.; Sugars, 8 a 10 dills. Hides, 9 a 10 cts. pr. lb. Indigo, 1st quality, 2 dls. 2d do. 175 cents. Logwood, 65 a 70 dills. ton; Fustic, 37 a 40 dills. ton; Tortoise shell, 4 a 5 dills. per lb."

From St. Jago de Cuba, June 12, we learn, that about thirty fail of American prize vessels had recently been burnt and otherwise destroyed at that place.

### Fatal Duel!

A Duel was fought at New-York, on the 11th inst. between Col. Burr, and Gen. Hamilton; the following is the notice of it in the Evening Post:—

The universal anxiety which agitates all classes of people in this city for the fate of General Hamilton, renders it proper that we should state that at the time of putting this paper to press he was alive.—Would to God we could add that there is room for the most distant hope of his recovery!—Alas! nature is fast sinking under the injury; and but a few hours more must close the scene forever.

It is probable the public will at a proper time, be presented with a correct statement of the causes that produced and the circumstances that attended this deplorable disaster.

We stop the press to announce the melancholy tidings that GENERAL HAMILTON IS DEAD!

The absence of the editor from town, the week past, must apologize for many typographical, and several other errors, in Tuesday's and Friday's papers.
